This beautiful home in Belicia Estates is the only residential property presently on the market in this lovely gated community. The single-level house is sited on an elevated lot next to a serene green belt. Impeccably maintained, with new stucco and painted interior within the last year. Tiered rock wall surrounds the back of the house overlooking the green belt. Entering the home, you see the beautiful outdoor setting through the french doors and ample windows. A deep portal highlights gracious outdoor living, with a hot tub for star gazing. Soaring ceilings in living room with vigas and skylight give a very spacious feeling. Large, well appointed kitchen with entry to the fully finished 3-car garage is convenient for unloading groceries. The master bedroom is large, with a fireplace. The front bedroom can be used for an office or den. Evaporative cooling is another great feature. This home is located just 15 minutes to Santa Fe on all paved roads. A must see!
